Summary

Fifty years of professional experience including two years as Vice President and Senior Fixed Income Analyst for a national investment banking firm, forty-four years as a CPA in public accounting or litigation and financial consulting, three years as a senior financial executive in the financial services industry, and five years as an investigative newspaper reporter. Owned and operated a registered broker-dealer for 20 years. As a litigation consultant, specialize in securities fraud and audit negligence. Engagements have included institutional Ponzi schemes, including Medical Capital, DBSI and Provident Royalties, loan underwriting and real estate feasibility analysis, analysis of adequacy of disclosure offering documents and broker due diligence endeavors, damage valuations, and analysis and formulation of reorganization plans. Have served as expert for the U.S. Securities & Exchange Commission on several matters and as the Special Investigative Consultant to the Colorado Board of Accountancy on Colorado thrift-related matters as well as the states of Hawaii and Florida. As a Senior Fixed Income Analyst, concentrated on municipal and corporate credit analysis of non-rated or "junk" securities. Presented results and purchase or sales recommendations to institutional and retail investors. Developed detailed analyses of numerous troubled credits, formulated strategies in work out negotiations, and provided 30 debt security valuations. As a consultant, arranged bank letter of credit enhancements on 15 municipal bond transactions totaling more than \$400 million and due diligence, acquisition, budget, planning and management to numerous clients. As an investment banker, was involved in obtaining a \$500 million revolving line of credit for a purchaser of delinquent credit card receivables. Gained national exposure as the first analyst in the United States to predict the 1990 S & P downgrade on the new \$3.4 billion Denver International Airport.

- Served as testifying expert for the U.S. Securities & Exchange Commission on audit negligence matter involving a Big 5 accounting firm's failure to properly identify and value restricted securities.
- Served as testifying expert for an institutional purchaser of a hedge fund that misrepresented the concentration of its investments and subsequently failed. Case involves adequacy of due diligence by selling broker.
- Serve as expert in a \$10 million bond anticipation note failure issued by a hospital that misrepresented its financial condition.
- Served as a testifying expert for the U.S. Securities & Exchange Commission on a second audit negligence matter involving the improper valuation of mining assets.
- Served as consulting and testifying expert to a major, regional investment banking Defendant which served as financial advisor to a municipality. The matter involved claims against investment banker by a real estate developer alleging adverse recommendations were the result of unsound analyses and conflicts of interest.
- Served as consulting and testifying expert to Securities Investor Protection Corporation Trustee seeking to recover \$13.2 million from a defunct securities broker-dealer. Matter involved asset tracing to multiple affiliated entities and related endeavors.
- Served as a consulting and testifying expert to Securities Investor Protection Corporation Trustee seeking to remove Managing Member of an LLP in connection with the fraudulent theft of assets through improper expense charges, commissions and fees.
- Served as consulting expert to Plaintiffs in a class action litigation alleging falsified collection reporting, inflated earnings and improper accounting in connection with a publicly traded company which purchased and collected delinquent credit card and other bank receivables.
- Served as a consulting and testifying expert to bond purchasers in connection with material misrepresentations allegedly made in a \$40 million multi-family housing bond issue in Oklahoma.

Gordon Yale, cont.
Certified Public Accountant

- Served as Special Investigative Consultant to the Colorado Board of Accountancy and Colorado Attorney General's office in connection with audits by "Big Five" accounting firms of three major, Colorado thrifts with total assets in excess of \$500 million each. All three institutions ultimately failed. Engagements included detailed review of audit work papers, particularly loan and loan loss analyses, and the review and analysis of appropriate audit and accounting standards.
- Served as a consulting and testifying expert to Plaintiff's in a litigation against national underwriter, a developer and other parties in connection with a \$38 million bond offering. Reviewed offering documents, developed specific allegations of fraud and provided supporting analysis and documentation.
- Served as consulting expert to an insurer which credit enhanced approximately \$20 million of mortgage revenue bonds. The bonds defaulted on the first payment not funded by capitalized interest. The matter also involved claims against a large, regional accounting firm that was associated with allegedly misleading projections.
- Served as a testifying expert engaged by a major institutional plaintiff in connection with negligence and fraud claims against a developer, underwriter, a consulting firm and others involved in the offering of \$32.1 million of sewer revenue bonds in Arizona.
- Served as a consulting expert to Plaintiffs' counsel in connection with a minority shareholder suit against senior executives and Employee Stock Ownership Plan Trustees of a regional investment banking firm. Issues involved the valuation of the investment bank.
- Served as a consulting expert in a matter involving approximately \$18 million of shareholders claims against an acquiring corporation which allegedly miscalculated shareholder bonuses and earn outs after an acquisition.
- Served as an investigative expert to minority shareholders of a telecommunications corporation in a matter involving the alleged improper use of corporate funds, self-dealing, breach of contract and a variety of other claims against the executive officers, board of directors and majority shareholders of the corporation.
- Served as a testifying expert in a mandamus action against a city and an urban renewal authority in connection with litigation to compel the continued payment of more than \$2 million annually of incremental sales tax revenues to bond holders of defaulted urban renewal authority bonds.
- Served as a consulting expert developing claims against a financier and various professionals in connection with a series of bond transactions in which illegal arbitrage profits that result in tax losses of more than \$200 million.
- Served as expert to Plaintiff's in a \$10 million action against Fidelity Management in connection with Fidelity's recommendation of guaranteed investment contracts ("GIC") of a Canadian insurance company which subsequently failed. Developed specific due diligence programs and analysis which served as a basis for detailed examination of Defendants, ultimately establishing specific allegations of negligence.
- Researched for federal government plaintiff historical audit and accounting literature and federal regulations concerning loan and other loss provisions in connection with an audit negligence case involving a "Big Five" accounting firm's audits of a \$500 million thrift institution. Also provided substantial real estate market and economic research, expert identification, damages analysis and other services in connection with the engagement.
- Provided comprehensive analysis of a \$18 million bond offering and developed a highly detailed series of examination questions in connection with a municipal securities fraud matter. Work included analysis of the adequacy of offering documents that required detailed examination of the

Gordon Yale, cont.
Certified Public Accountant

then current real estate market, a feasibility study, and a variety of economic, demographic, and financial data.

- Served as Defendant's expert in a construction negligence case in which Plaintiff's alleged delays resulted in substantial additional costs of debt due to changes in interest rates. Provided expert report which asserted there were no consequential damages.
- Served as damages expert in the valuation of a stock appreciation right.
- Served as Defendants' expert in a matter involving allegations of theft of trade secrets and other related matters. Issues related to value of a business.
- Served as Plaintiff's expert in a dispute over a stock purchase agreement. Claims involved efficacy of a business valuation.
- Served as Defendant's expert in three separate breach of contract claims, two against a major Denver physicians management organization and the second against a physician corporation. Claims involve financial analysis and the calculation of damages under complex formulae.
- Served as expert consultant to money center bank trustee on \$12 million Chapter 9 municipal bankruptcy. Endeavors include financial analysis, participation on negotiating team, bond structuring and other related issues.
- Served as testifying expert for major bank trustee in a litigation against the city of Englewood, Colorado and the Englewood Urban Renewal Authority in connection with the issuance and failure of \$30.1 million of tax increment bonds. Issues involve duration of pledge of incremental sales and property tax revenues to bond holders.
- Served as testifying expert on behalf of Plaintiff in connection with purchase of nearly \$1 million of junk corporate bonds. Testimony included analysis of investment risk, establishing increasing risks as issuer's financial condition deteriorated and providing evidence that national brokerage firm had no basis to continue to recommend the junk bond investment.
- Served as consulting and testifying expert on behalf of a Plaintiff in connection with suitability of \$7 million junk corporate and municipal bond portfolio. Engagement required analysis of various junk bonds, on going monitoring of portfolio and other related issues.
- Provided an array of research and analytical services and expert testimony in connection with a \$35 million Chapter 9 municipal bankruptcy which resulted in a mandamus action against a special district. Engagement included evaluating various development and financial aspects of a residential master planned community, including an in-depth analysis of area competition, studies of project economics, critical analysis of opposing absorption forecasts and other materials, and analysis of developer financial condition. Further, served as a key member of the negotiating team, structuring settlement and provided critical financial and market analysis of counter-proposals.
- Provided expert testimony for plaintiffs in connection with two patent infringement litigations. In the course of the work in one matter, discovered indications of tax fraud by the defendants, forcing substantial revisions to opposing expert reports. In the second matter, discovered material irregularities in the Defendant's calculation of infringing sales and profits from infringing sales.
- Provided expert testimony in a customer action against a broker involving the rationale for a covered call strategy that resulted in substantial client losses; served as expert consultant in a churning matter.
- Served as a consulting bond expert for a state insurance commission in connection with litigation against Defendants accused of looting an insurance company in a scheme involving the sales of defaulted municipal securities. In connection with the engagement, valued three different bonds issues and 11 promissory notes.

Gordon Yale, cont.
Certified Public Accountant

- Analyzed and reported on the causes of failure of a \$2.5 billion savings and loan engaged in sophisticated interest-rate management activities including hedging, interest rate swaps and arbitrage activities as well as high-yield, high-risk lending. The engagement, on behalf of Defendants, included analyses of hedging and other risk management activities, a study of the adequacy of the corporation's capital position, and the impact of the declining real estate market on the financial condition of the loan portfolio. The work included a detailed analysis of economic and interest rate projections available to management and an assessment of the resulting decisions.
- Researched historical audit and accounting literature concerning asset impairment and related party transactions to develop and support specific negligence claims against auditors of a major municipal special district which defaulted on more than \$18 million in bonds.
- Developed evidence of negligence by "Big 5" accounting firm in connection with audits of a publicly-held real estate development corporation. Work included documenting land flips, improperly recognized sales revenues and profits by "parking" property with buyers whom the corporation indemnified against loss, and work paper review and analysis.
- Analyzed and documented real estate lending losses of an insolvent savings and loan related to the alleged negligence of the institution's officers and directors. The project, in which I was engaged by Defendants, included evaluating appraisals, feasibility studies, and other income projecting endeavors used to support loan underwriting activities and to establish property values. Project also included evaluation of Plaintiff's \$600 million damage claims.
- Developed and documented evidence of audit negligence against a "Big 5" accounting firm in connection with its examinations of a publicly-held offshore oil and gas drilling company which resulted in a jury finding of liability. Issues involved failure to write-down idle and obsolete assets, recognition of tax refunds, and classification of assets.
- Researched and reported on illegal domestic surveillance activities of U.S. Army Intelligence in North Carolina. Illegal activities included military surveillance on labor unions, civil rights, and anti-war activists, black student leaders, and liberal political activists. Uncovered military "enemies list" which included the names of many well-known anti-war activists who were to be arrested in a "national emergency."
- Researched and reported on covert efforts by organized crime to lobby for state legislation to legalize off-track betting in Kentucky. Detailed the names of many convicted gamblers, some involved in organized crime, who funded, organized, and participated in lobbying activities directed toward Kentucky state legislators. Disclosed a variety of covert activities in the lobbying effort and identified supporters in the state legislature.
- Researched and reported on securities fraud and insider dealings by the leadership of a church in connection with debt securities and perpetual care offerings, leading to the indictment and conviction of the church's pastor.

Financial and Economic Analysis

- Advised an issuer of \$160 million of revenue bonds on various aspects of bond defaults and other related issues.
- Provided investment banking services in connection with a \$500 million financing of delinquent bank and credit card receivables.
- Served as financial advisor to the Pueblo, Colorado Urban Renewal Authority.
- Served as a consultant for manager for the city of Westminster, Colorado. Tasks included managing a team of outside professionals evaluating service plans of developers seeking to create special districts within city limits.

Gordon Yale, cont.
Certified Public Accountant

- Provided valuation and other financial consulting services in connection with \$38 million of loan guarantees provided by a \$1 billion hospital management corporation to a start-up hospital corporation.
- Supervised and participated in the due diligence efforts of a regional investment banking firm of a major, national, publicly-held home builder in connection with the issuance of more than \$30 million of municipal bonds which were secured by the home builder's tap purchase agreement and debt service guarantee.
- Identified and procured bank letter-of-credit enhancements totaling more than \$400 million in connection with fifteen bond offerings. Prepared analyses and materials outlining risks and rewards of the transactions which were used by providers to rationalize the enhancement.
- Prepared and presented credit analyses of approximately 30 corporate and municipal debt securities involving the financing of public and private enterprises including two major international airports, two ski resorts, a golf and water-sports complex, three retail and commercial developments, and a troubled multi-billion dollar insurance corporation. Predicted the Standard & Poors rating downgrade on \$1 billion of Denver International Airport debt which were then outstanding.
- Developed a business plan and budget system for a major, national, publicly-held retail computer store franchiser.
- Provided consulting services, acquisition and valuation analysis, and participated in negotiations for three separate mergers in the franchising and investment banking industries.
- Conducted primary and secondary market research and prepared a business and development plan for a regional division of a national residential home builder.
- Managed banking relationships, cash flow, and budgeting activities for a regional securities broker-dealer.
- Created cash management and workout plans for a troubled real estate, hotel, and restaurant corporation.
- Prepared valuation analysis, developed work-out strategies, and coordinated institutional bondholder groups in a \$20 million renegotiation of an industrial development bond financing.
- Analyzed the feasibility of an absorption study of a mixed-use (multi-family and commercial) development in connection with a restructuring of a \$15 million financing.

Auditing/Accounting

- Managed the audits of numerous initial public offerings of diverse corporations, supervising up to 10 persons.
- Managed the audits of six securities broker-dealers and three open-end mutual funds, all of which had specialized accounting rules and SEC reporting requirements. Reported to the SEC on material weaknesses in internal control.
- Researched and implemented statistically-based LIFO inventory conversion for a \$20 million office furniture retailer using the complex dollar-value, link-chain method which provided for the use of random sampling techniques to estimate inventory costs.
- Provided consulting services to a major daily newspaper in connection with a statistical study which projected a substantial shortfall of airport parking lot revenues. The analysis ultimately resulted in a second investigation and a decision not to renew the airport franchise agreement with the franchisee.

Gordon Yale, cont.
Certified Public Accountant

- Reviewed approximately 20 internal control systems of diverse business organizations including retail, manufacturing, securities broker-dealers, mutual funds, and a municipal government.
