### ***In Remembrance of Richard Sandow-by Ross Tulman***

Dear Colleagues and Friends – our dear friend Richard Sandow passed away this week. He had been hospitalized for several months due to complications related to a kidney transplant.

I first met Richard approximately 25 years ago at an arbitration hearing in Dallas. I knew immediately that Richard would be a welcome addition to our organization. He accepted our invitation and became a member shortly thereafter. SER relied on Richard's 50-plus years of experience as an executive in the securities and investment advisory industries and benefited from his service on many boards of charitable organizations during the period when we were transitioning from an informal discussion group to formal incorporation in 2005.

He was elected as an original incorporator and served for consecutive terms on our Board of Directors. Richard was elected as our third President in 2007. For many years he hosted our winter Board meeting at the Las Colinas Country Club including dinner at La Cima - where Richard displayed his skills with respect to fine wine selection and storytelling while not under oath.

Richard was truly an expert's expert. He was one of the rare individuals who mastered the art of working for both claimants and respondents. His testimony was consistently based on actual standards of care without the editorial spin that commonly occurs in these matters. Not surprisingly, Richard was retained in more than 700 cases, and he testified on hundreds occasions in just about every forum available in dispute resolution – which, in and of itself, is a testament to his integrity and the respect accorded to him by practitioners and triers of fact.

Rest in Peace Richard.
